Foot Clinic

Thank you so much to the people who have done such a wonderful job with the flowers and plants in our public spaces keeping our community beautiful!

CITY OF SUTTON NEWSLETTER

Issue 32

July 2019

The Sutton Volunteer Fire Department annual fireworks display will be held at 10 pm on Thursday, July 4th at Fox Hollow Golf Course.

10 Year To-Do List

The City of Sutton is working with JEO Consulting to gather information for a conceptual plan to revitalize our Downtown area. The input received from this survey will help the City create a "10 Year To Do List" of projects intended to improve the appearance, accessibility, longevity, and economic activity in Downtown Sutton. The community wide survey for the Downtown Sutton Revitalization Plan is live at: downtownsutton.com

The survey is less than 10 questions and should take roughly 10 minutes to complete.

The consultant can answer any questions you may have in regards to the survey and can be contacted at bpettit@jeo.com

Thank you to everyone who donated during the 1011 Can Care-A-Van. Because of your generous donations, we were able to exceed our 5,000 pound goal, bringing in a grand total of 8,685 pounds of food!

Fireworks Safety

Light up the night. And, stay safe.

Whether you like to light a sparkler or two or plan the most eye-catching display in your neighborhood, here are a few quick tips to keep in mind before you start the show.

Keep it legal.

The majority of injuries sustained from fireworks result from illegal fireworks. Buy only legal fireworks. Looking for a quick way to tell what's legal? Avoid fireworks packaged in brown paper. (That's usually an indication that those particular fireworks were made for professional displays and not intended for consumers.)

Keep water close.

Always have a bucket of water nearby in case of an emergency. As an extra precaution, douse burned fireworks with water before discarding them in the trash.

Keep away.

Once you've lit the fuse, back up immediately and maintain a safe distance. What if one of your fireworks doesn't do what it's supposed to do? Douse it with water. Do not attempt to retrieve or reignite a fireworks device that did not light properly.
